## Barney Blackshear Is Given Death in Murder of Texans

Oil Field Worker Must Die for Killing Two in \$17 Robbery

JURY OUT TEN HOURS

Find Young Man Guilty of Slaying Man and Woman With Iron

TYLER, Texas.—Barney Blackshear, 23-year-old oil field worker formerly a resident of Dallas, will pay with his life for the murder of Mrs. Vera Brimberry, at Arp in the perpetration of a robbery which netted him \$17. The woman's husband was also slain.

The verdict was returned here Sunday night by a jury which had deliberated over 10 hours.

Confession Is Read

A confession read to the jury over the defense protests told how the defendant enticed George Brimberry from the couple's cabin, killed him with a wrench, and then killed the wife with a flat-iron. In this confession, Blackshear said that before leaving the house he took an old magazine and wrote on it "negro killed me" and placed it with a pencil in Mrs. Brimberry's hands.

Blackshear said that he then went to a cafe where he played a piano and danced, later returning to the cabin to view the bodies in company with investigators seeking the slayer.

Blackshear, defended by Duncan Mayner, noted East Texas criminal lawyer, based his defense upon a plea of sanity. His mother testified that he often had "tantrums" similar to those of his father who died in a state asylum at Terrell a year ago.

"It suits me," said the condemned man after the verdict, "I'd rather have that than a long sentence."

The defense will offer a motion for a new trial and appeal the case, it was indicated.

Growing Season Advances—Exports Increase Over 1931

MEMPHIS.—(U. S. Dept. Agriculture)—The cotton market during the period April 30th to May 6th was practically unchanged compared with prices of April 20th.

Demand for spot cotton continued dull with holders however not inclined to push their unsold stocks for sale either for prompt or deferred shipments.

Inquiries were said to be directed to the medium and low grade cottons in the lengths from 7-8 inch up to 1-1 3/4 inch inclusive. Averaging price middling 7-8 inch ten market May 6th 5.38 cents compared with 5.38 cents April 29th and 9.31 cents on the corresponding day the previous season.

The volume of spot transactions as reported by the ten markets was moderate.

According to the Weather Bureau during the past week substantial rain fall was widespread in the cotton belt but notwithstanding planting made fair to satisfactory advance in many places and was active in the eastern portion of the belt.

In Texas much cotton is up with good stands in the central and southern parts of the state and chopping has advanced to central districts, while some fields have come up in southeastern Oklahoma.

Exports to 6th this season amounted to about 7,500,000 bales, compared with about 6,100,000 bales for the like period a year ago.

According to the New York Cotton Exchange service world consumption of American cotton during the first eight months of this season amounted to about 8,400,000 bales compared with about 7,300,000 for the like period the year before.

During that period there were consumed in Great Britain 877,000 bales compared with 823,000 the year before and in the Orient about 1,600,000 bales against about 840,000 bales the year before.

On the Continent there were consumed 2,300,000 bales against 2,400,000 last season for the corresponding eight months.

## Ryerson, Chicago Magnate, A Suicide

Millionaire Who Concealed "Four-Minute" War Drive, Shoots Self

CHICAGO.—(P)—Donald Mitchell Ryerson, 48, chairman of the board of Joseph T. Ryerson & Son, Inc., steel manufacturers, was found shot to death on his Lake Forest estate early Sunday.

The body was found by his wife, Mrs. Isabelle McGinniss Ryerson, after she discovered a note in his room in which he indicated he was going to take his life.

The body was found lying on a beach, the note on the Ryerson mansion, which one bullet had been fired into the man's head, was found nearby.

Edward L. Ryerson, president of the Steel corporation and brother of the victim spoke for the family.

"My brother for some months has been suffering from a nervous breakdown," he said. "Always of the nervous type, overwork broke down his resistance. Since last October, although still chairman of the board, he has had practically no connection with active operation of Joseph T. Ryerson & Son."

A verdict of suicide was reached by a coroner's jury a few hours after his death.

Mr. Ryerson was one of the leading industrialists of Chicago. Educated at Yale, his scientific and industrial training was made available to the government during the World war when he supervised construction of submarine chasers. He also fathered the idea of the "four-minute" men drive which floated the Liberty loans.

The success of the plan won President Wilson's personal commendation.

## Audit Commission Will Protest Appointment

LITTLE ROCK.—(P)—Chairman W. J. Waggoner of the state audit commission said following an executive session of the commission that the appointment of Hugh L. Carter, Little Rock civil engineer, as special master in chancery in the suit brought by the Hogan Construction company, which would be opposed by the commission.

Judge Waggoner said that a formal motion protesting the appointment which was made several weeks ago by Chancellor Dodge, would be filed and that Carter's removal would be asked on the grounds that the appointment was made without the knowledge of members of the commission.

He said that the commission had been informed Carter had been an applicant for the position of chief engineer of the state highway department.

The appointment of Mr. Carter was made several weeks ago to hear testimony in the suit brought by the construction company seeking an accounting under the contract between the company and the state highway commission for work on a cost plus basis.

## Rangers Shoot Man In Extortion Plot

Youth, One Time School Mate of Intended Victim Is Wounded

WHARTON, Tex.—(P)—Texas rangers lying in wait for an extortionist beside a Jackson county creek at dusk shot and wounded Roy Henderson of Edna, Texas, one time schoolmate of the intended victim, Leverage Stockton, banker.

W. W. Sterling, adjutant general, ordered the rangers, Captain Light Townsend and W. L. Dial, to set the trap into which the suspect fell.

"We are paying ransom collectors and kidnappers off in lead instead of money," he said.

Stockton, receiving letters demanding \$500 under threat of his four year old daughter, notified rangers. Acting under their directions he took a dummy package to the creek bank site named by the extortionist and left.

The officers, concealed in a thicket, said Henderson approached and was stooping to pick up the package when they shouted for him to surrender. He ran. Buckshot pierced one of his legs. Escaping temporarily, he was arrested after he sought treatment in Houston. He was held in the county jail here.

Henderson, in a statement to Detectives Ira Williams and Gus Butler, denied he was the plotter. He asserted he had heard of attempts to extort money from the banker and upon seeing Stockton place the package, decided to examine it.

## Golfer, Caddies Killed By Bolt

Two Others Injured When Lightning Strikes at Nashville Course

NASHVILLE, Tenn.—(P)—Two caddies and a golfer were killed by lightning and two other golfers were injured Sunday on the Shelby Park links, a municipal course.

The dead:  
Roy Woodall, 28, a coal salesman, killed outright.  
Elliott Skelly, 17, a schoolboy and caddy, killed outright.  
Roy Pugh, schoolboy-caddy, died en route to a hospital.

The two injured are Paul Swan, railroad employee and Ernest Criswell, insurance salesman.

"It felt like I was hit on the head with an anvil," said H. C. Bratton, fourth of the foursome, who had deserted it, and was heading for the clubhouse some 100 yards away when the bolt struck.

The physician who treated Criswell and Swan said they suffered severely from shock, but "I see no reason at all why they shouldn't be all right in a few days."

Woodall apparently received the full force of the bolt, which buried a place on his scalp, then ran through his body and drove his foot about six inches in the ground. The turf was

## Sale to Play at Saenger Tuesday

Author of "The Specialist" Stars in "The Expert"

Charles "Chick" Sale ("The Specialist") and Dickie Moore, members of the "partnership" which gave "The Star Witness" its absorbing interest, are re-united as a similar team in "The Expert," the Warner Bros. screen production from the novel "Old Man Minick" by Edna Ferber, which comes to the screen of the Saenger Theatre Tuesday and Wednesday.

In "The Expert," Sale is the good-intentioned, but meddling old man who comes to the city to live with his son and daughter-in-law after a long lifetime in a small town. Strongly opinionated, he does not hesitate to tell everyone what should be done. He tells a group of club women they do not know how to rear children. He interferes with the cook. He knows all about "rasslin'" because he was town champion in his youth. He is misunderstood generally and falls to carry through his "reforms."

## Probe of Incomes of Officials Asked

Bank Deposits of Seven New York Office Holders Exceed Salaries

NEW YORK.—(P)—The City Club demanded in a public letter Monday that the income of seven county officials, aggregating \$1,500,000, as revealed in the Hofstadter legislative investigation, be explained at once.

The club based its demand upon Gov. Franklin D. Roosevelt's statement in dismissing Thomas M. Farley as sheriff of New York county last February. The governor then said the public was entitled to know the sources of income of officials in excess of their salaries. Sheriff Farley's salary was \$15,000 a year. His bank deposits in five years were shown to have been \$360,000.

In its communication the City Club named among others, Peter J. Curran, undersheriff, whose salary was \$7,500 and whose deposits were given by Samuel Seabury's investigators at \$662,311.11.

"The retention by public officers of subordinates who cannot explain their sources of income," the City Club's letter added, "is an amazing example of effrontery."

The City Affairs Committee in a letter Monday, criticized Surrogate John Hetherington of Queens county and Governor Roosevelt for failure to remove John Theofel, chief clerk of Queens Surrogate Court on charges of violation of the election laws.

The committee demanded a public hearing at which "a really serious investigation" of the charges against Theofel might be had and called upon the surrogate to order such hearing of his subordinate's case.

Bratton said he left the others just as they drove from the ninth tee. "I asked Woodall what time it was," he related. "He said it was 11:10, and I said I had to go get my children from Sunday school."

L. J. Boaz, a concessionaire, said "the bolt tore off strips from Woodall's trousers and little strips from his shoes, shirt and cap."

## Jury Finds Former Treasurer Guilty

T. P. Jefferson of Stone Co. Convicted of Nonfeasance in Office

MOUNTAIN VIEW.—T. P. Jefferson, former Stone county treasurer, was found guilty of nonfeasance in office by a jury Saturday night and automatically was removed from office. It was alleged that habitual drunkenness caused his failure to perform his duties. Several other charges are pending against him, including an alleged shortage in his accounts.

The jury was completed by noon Saturday, with the hearing of evidence and arguments by attorneys occupying the afternoon. The case went to the jury at 6 and a verdict was returned about two hours later. Court was adjourned until May 16, when further charges against Jefferson and former Sheriff Sam Johnson, who was convicted Friday night, will be heard.

Johnson also was removed from office when he was found guilty of failing to settle with the county and the state for the full amount of taxes collected and was fined \$75.

The jury which heard the case against Johnson yesterday, in which he was charged with failure to settle with the county for funds collected, returned a verdict of guilty at 12:30 Saturday morning. The verdict carried a fine of \$75 and permanently barred him from office. Both Johnson and Jefferson were suspended from office last summer when the indictments against them were returned.

## Plans of Guilty in Kidnaping Likely

Prosecutor Refuses to Bargain With Abductors of Doctor

PEORIA, Ill.—Several plans of guilt may be entered and the state's case thereby strengthened when the 10 men and two women charged with kidnaping Dr. James W. Parker go on trial in Judge Henry J. Ingram's court Monday, state's Attorney Henry Pratt said.

Some of the nine defendants who made statements after their arrest have sought to bargain with the prosecutor, seeking the promise of recommendations for leniency in exchange for aiding the state's case. But Mr. Pratt said he would not deal with them and that he had all the evidence he needed against the three major defendants: James W. Beaton, former detective, Ku Klux Klan leader, and reform politician; arrested in former Gov. Len Small's headquarters; Joseph H. Purcell, lawyer and politician, and Claude ("Red") Ryana.

Dr. Parker, well known physician and president of the Illinois Securities Corporation, Chicago, was kidnaped while entering his garage March 14.
